PROJECT INFORMATION

		KEY QUANTITIES		KEY RATES	
1	Site clearance	m2	16,500	R	4.68
2	Concrete demolitions	m3	30	R	1,657.50
3	Bulk excavation	m3	5,500	R	38.25
4	Vertical piles	No	206		
5	Raking piles	No	15		
6	Concrete in piles	m3	ratio	R	1,572.50
7	Auger pile	m	ratio	R	340.00
8	Total paving and asphalt to road works	m2	4,550		
9	Grey paving to road works	m2	485	R	148.75
10	Asphalt to road surface	m2	4,065		
11	Rip bed of road works	m2	4,550	R	12.75
12	Total concrete in paving and bunding	m3	430	R	1,572.50
13	Concrete in paving	m3	259		
14	Rod reinforcement	t		R	12,325.00
15	Concrete in plinths and bases on area finishing	m3	190		
16	Stormwater pipe to drain surface run-off	m	92		
17	Machine excavation	m3		R	72.25
18	Concrete in pump and pipe support bases	m3	255	R	1,572.50
19	Concrete in tank bases	m3	95	R	1,572.50
20	Concrete in pipe and cable rack foundations	m3	105	R	1,572.50
21	Concrete to simple structural foundations	m3	135	R	1,572.50
22	Complex structural foundations - bases	m3	249	R	1,572.50
23	Concrete pipe racks - bases	m3	199	R	1,572.50
24	Concrete structure including concrete columns and beams - bases	m3	330	R	1,572.50
25	Major equipment bases with blast proof walls - bases	m3	2,700	R	1,572.50
26	Major equipment bases and elevated concrete structure - bases	m3	123	R	1,572.50
27	Concrete frame buildings with brick in-fill - all concrete	m3	798	R	1,572.50
28	One brick wall	m2		R	382.50
29	Concrete in structual steel buildings - all concrete	m3	88	R	1,572.50
30	Total building area - Structural steel buildings	m2	873		
31	Ceiling	m2		R	301.75
32	Structural steel	t		R	46,750.00
33	Steel canopy - concrete	m3	65	R	1,572.50
34	Steel canopy - area	m2	545		
35	Concrete in weighbridge - all concrete	m3	75	R	1,572.50
36	Total weighbridge area	m2	155		
37	Total control room area - weighbridge	m2	14		
38	Concrete in pump house - all concrete	m3	15	R	1,572.50
39	Total pump house area	m2	29		
40	Concrete in cooling tower	m3	544	R	1,572.50
41	Total cooling tower area	m2	403		
42	Emergency earth dam area - top of berm	m2	4,621		
43	Concrete in cable tunnel	m3	137	R	1,572.50
44	Total lengh of cable tunnel	m	65		
45	Total volume of basic steel platform	m3	48		
46	Total volume of steel pipe rack	m3	1,697		
47	Total volume of steel complex steel structure	m3	12,149		
48	Total volume of steel in stack	m3	405		
49	Total volume of steel in walkway	m3	45		
50	Total volume of steel in cable gantry	m3	506		
51	Piping work unit cost	WU		R	370.60
52	Total process pipe length	m	39,216		
53	Total electrical cable - installation only	m	38,480	R	66.30
54	Total instrumentation cable - installation only	m	29,023	R	44.20

Ratio: Project Ratio Median

Variables

Material	Normal	Mean

PROJECT INFORMATION

		KEY QUANTITIES		KEY RATES	
1	Site clearance	m2	24,553	R	6.25
2	Concrete demolitions	m3	45	R	1,788.00
3	Bulk excavation	m3	12,664	R	62.00
4	Vertical piles	No	352		
5	Raking piles	No	45		
6	Concrete in piles	m3		R	1,732.00
7	Auger pile	m		R	325.00
8	Total paving and asphalt to road works	m2	5,547		
9	Grey paving to road works	m2	452	R	142.00
10	Asphalt to road surface	m2	5,095		
11	Rip bed of road works	m2	5,547	R	14.55
12	Total concrete in paving and bunding	m3	558	R	1,732.00
13	Concrete in paving	m3	375		
14	Rod reinforcement	t		R	13,225.00
15	Concrete in plinths and bases on area finishing	m3	423		
16	Stormwater pipe to drain surface run-off	m	455		
17	Machine excavation	m3		R	75.00
18	Concrete in pump and pipe support bases	m3	285	R	1,732.00
19	Concrete in tank bases	m3	242	R	1,732.00
20	Concrete in pipe and cable rack foundations	m3	345	R	1,732.00
21	Concrete to simple structural foundations	m3	365	R	1,732.00
22	Complex structural foundations - bases	m3	125	R	1,732.00
23	Concrete pipe racks - bases	m3	245	R	1,732.00
24	Concrete structure including concrete columns and beams - bases	m3	425	R	1,732.00
25	Major equipment bases with blast proof walls - bases	m3	62	R	1,732.00
26	Major equipment bases and elevated concrete structure - bases	m3	112	R	1,732.00
27	Concrete frame buildings with brick in-fill - all concrete	m3	425	R	1,732.00
28	One brick wall	m2		R	412.00
29	Concrete in structual steel buildings - all concrete	m3	136	R	1,732.00
30	Total building area - Structural steel buildings	m2	1,554		
31	Ceiling	m2		R	285.00
32	Structural steel	t		R	42,551.00
33	Steel canopy - concrete	m3	175	R	1,732.00
34	Steel canopy - area	m2	145		
35	Concrete in weighbridge - all concrete	m3	0	R	1,732.00
36	Total weighbridge area	m2	0		
37	Total control room area - weighbridge	m2	0		
38	Concrete in pump house - all concrete	m3	0	R	1,732.00
39	Total pump house area	m2	0		
40	Concrete in cooling tower	m3	625	R	1,732.00
41	Total cooling tower area	m2	365		
42	Emergency earth dam area - top of berm	m2	0		
43	Concrete in cable tunnel	m3	0	R	1,732.00
44	Total lengh of cable tunnel	m	0		
45	Total volume of basic steel platform	m3	202		
46	Total volume of steel pipe rack	m3	2,976		
47	Total volume of steel complex steel structure	m3	12,422		
48	Total volume of steel in stack	m3	0		
49	Total volume of steel in walkway	m3	157		
50	Total volume of steel in cable gantry	m3	0		
51	Piping work unit cost	WU		R	399.00
52	Total process pipe length	m	124,552		
53	Total electrical cable - installation only	m	75,442	R	69.00
54	Total instrumentation cable - installation only	m	65,112	R	46.50

PROJECT INFORMATION

		KEY QUANTITIES		KEY RATES	
1	Site clearance	m2	22,145	R	4.15
2	Concrete demolitions	m3	124	R	1,422.30
3	Bulk excavation	m3	11,542	R	40.00
4	Vertical piles	No	288		
5	Raking piles	No	12		
6	Concrete in piles	m3		R	1,289.00
7	Auger pile	m		R	322.45
8	Total paving and asphalt to road works	m2	6,552		
9	Grey paving to road works	m2	485	R	142.22
10	Asphalt to road surface	m2	6,067		
11	Rip bed of road works	m2	6,552	R	11.55
12	Total concrete in paving and bunding	m3	602	R	1,289.00
13	Concrete in paving	m3	401		
14	Rod reinforcement	t		R	11,425.00
15	Concrete in plinths and bases on area finishing	m3	415		
16	Stormwater pipe to drain surface run-off	m	345		
17	Machine excavation	m3		R	55.22
18	Concrete in pump and pipe support bases	m3	322	R	1,289.00
19	Concrete in tank bases	m3	345	R	1,289.00
20	Concrete in pipe and cable rack foundations	m3	422	R	1,289.00
21	Concrete to simple structural foundations	m3	503	R	1,289.00
22	Complex structural foundations - bases	m3	88	R	1,289.00
23	Concrete pipe racks - bases	m3	145	R	1,289.00
24	Concrete structure including concrete columns and beams - bases	m3	455	R	1,289.00
25	Major equipment bases with blast proof walls - bases	m3	0	R	1,289.00
26	Major equipment bases and elevated concrete structure - bases	m3	95	R	1,289.00
27	Concrete frame buildings with brick in-fill - all concrete	m3	388	R	1,289.00
28	One brick wall	m2		R	289.25
29	Concrete in structual steel buildings - all concrete	m3	205	R	1,289.00
30	Total building area - Structural steel buildings	m2	1,855		
31	Ceiling	m2		R	214.50
32	Structural steel	t		R	38,442.00
33	Steel canopy - concrete	m3	165	R	1,289.00
34	Steel canopy - area	m2	255		
35	Concrete in weighbridge - all concrete	m3	48	R	1,289.00
36	Total weighbridge area	m2	178		
37	Total control room area - weighbridge	m2	9		
38	Concrete in pump house - all concrete	m3	0	R	1,289.00
39	Total pump house area	m2	0		
40	Concrete in cooling tower	m3	588	R	1,289.00
41	Total cooling tower area	m2	322		
42	Emergency earth dam area - top of berm	m2	0		
43	Concrete in cable tunnel	m3	62	R	1,289.00
44	Total lengh of cable tunnel	m	55		
45	Total volume of basic steel platform	m3	365		
46	Total volume of steel pipe rack	m3	3,452		
47	Total volume of steel complex steel structure	m3	10,442		
48	Total volume of steel in stack	m3	458		
49	Total volume of steel in walkway	m3	95		
50	Total volume of steel in cable gantry	m3	245		
51	Piping work unit cost	WU		R	299.00
52	Total process pipe length	m	118,452		
53	Total electrical cable - installation only	m	68,442	R	48.00
54	Total instrumentation cable - installation only	m	49,775	R	35.00

Ratio: Variable ratio

Variables

Material	Simple	Mean
Labour	Complex	Mean
Engineering design	Simple	Mean
Current economic conditions	Normal	Mean
Current economic factors	Normal	Mean
Level of scope definition	Normal	Mean
Rework	Normal	Mean
Scope change	Normal	Mean

PROJECT INFORMATION

		KEY QUANTITIES		KEY RATES	
1	Site clearance	m2	16,442	R	3.77
2	Concrete demolitions	m3	23	R	1,313.25
3	Bulk excavation	m3	5,842	R	40.05
4	Vertical piles	No	65		
5	Raking piles	No	10		
6	Concrete in piles	m3		R	1,242.00
7	Auger pile	m		R	292.00
8	Total paving and asphalt to road works	m2	3,002		
9	Grey paving to road works	m2	115	R	124.00
10	Asphalt to road surface	m2	2,887		
11	Rip bed of road works	m2	3,002	R	10.20
12	Total concrete in paving and bunding	m3	274	R	1,242.00
13	Concrete in paving	m3	108		
14	Rod reinforcement	t		R	9,845.00
15	Concrete in plinths and bases on area finishing	m3	168		
16	Stormwater pipe to drain surface run-off	m	165		
17	Machine excavation	m3		R	49.20
18	Concrete in pump and pipe support bases	m3	89	R	1,242.00
19	Concrete in tank bases	m3	174	R	1,242.00
20	Concrete in pipe and cable rack foundations	m3	202	R	1,242.00
21	Concrete to simple structural foundations	m3	304	R	1,242.00
22	Complex structural foundations - bases	m3	0	R	1,242.00
23	Concrete pipe racks - bases	m3	66	R	1,242.00
24	Concrete structure including concrete columns and beams - bases	m3	285	R	1,242.00
25	Major equipment bases with blast proof walls - bases	m3	222	R	1,242.00
26	Major equipment bases and elevated concrete structure - bases	m3	164	R	1,242.00
27	Concrete frame buildings with brick in-fill - all concrete	m3	64	R	1,242.00
28	One brick wall	m2		R	285.00
29	Concrete in structual steel buildings - all concrete	m3	85	R	1,242.00
30	Total building area - Structural steel buildings	m2	665		
31	Ceiling	m2		R	185.00
32	Structural steel	t		R	34,225.00
33	Steel canopy - concrete	m3	177	R	1,242.00
34	Steel canopy - area	m2	955		
35	Concrete in weighbridge - all concrete	m3	55	R	1,242.00
36	Total weighbridge area	m2	185		
37	Total control room area - weighbridge	m2	12		
38	Concrete in pump house - all concrete	m3	0	R	1,242.00
39	Total pump house area	m2	0		
40	Concrete in cooling tower	m3	189	R	1,242.00
41	Total cooling tower area	m2	95		
42	Emergency earth dam area - top of berm	m2	0		
43	Concrete in cable tunnel	m3	36	R	1,242.00
44	Total lengh of cable tunnel	m	44		
45	Total volume of basic steel platform	m3	202		
46	Total volume of steel pipe rack	m3	1,745		
47	Total volume of steel complex steel structure	m3	3,885		
48	Total volume of steel in stack	m3	345		
49	Total volume of steel in walkway	m3	199		
50	Total volume of steel in cable gantry	m3	322		
51	Piping work unit cost	WU		R	279.00
52	Total process pipe length	m	46,112		
53	Total electrical cable - installation only	m	29,421	R	44.50
54	Total instrumentation cable - installation only	m	27,442	R	32.55

ADDENDUM H - A typical scope definition breakdown of a portion of a specific project

Contract No.: XYZ

Contract Name: ABC

ESTIMATING CHECKLIST FOR CAPITAL PROJECTS				**Required?**		**Included**	**Excluded**	**Comments**
				Yes	**No**			
Note: This estimate was measured using the following drawings:								
U-AZ-2-1001-0001RB								
U-AZ-2-1002-0001RB								
U-AZ-2-1003-0001RB								
U-BZ-2-1010-0001RB								
Preliminaries and General allowed for this work is based on a on-site construction period of:								
12 Months								
All rates are bases dated November 2009 and will be subjected to escalation								
Civil works will be escalated using the SAFSEC formula								
Structural steel and piping will be based on actual price increases in the market place								
P&G's have been priced based upon the time period stated								
This price include for normal working conditions only. No shut down conditions or hazardous area conditions have been allowed for.								
Free and unhindered access is assumed.
