Addendum F - Summary of Ratio Conceptual Estimate (RCE) for civil works on a typical petrochemical project

RATIO CONCEPTUAL ESTIMATE FOR:			
Project name:	XYZ Project - civil works only		
Location:	Gauteng - South Africa		
Client:	ABC Chemicals	Date of estimate:	06/02/2010

Project detail:

Site clearance	16500	m2
Demolish concrete	20	m3
Bulk excavations	8500	m3
Number of piles	200	No
Asphalt road surfaces	2000	m2
Paved roads - interlocking concrete blocks	1050	m2
Paved area finishing - concrete	4500	m2
Concrete in pump bases and support bases	90	m3
Concrete in tank bases only	435	m3
Concrete in bunding area finish only	370	m3
Concrete in rack foundations	80	m3
Concrete in simple structural foundations	477	m3
Concrete in complex structural foundations	358	m3
Concrete in columns to pipe racks - concrete columns and beams	560	m3
Concrete in columns to complex structures - concrete columns and beams	105	m3
Concrete in bases - major bases only	2020	m3
Concrete in blast proof walls - major bases	780	m3
Concrete in major bases only - concrete top structures	2992	m3
Building area (including all floors)	3456	m2
Concrete in building	1506	m3
Waterproofing to flat roofs	0	m2

THE USE OF RATIO CONCEPTUAL COST ESTIMATION FOR PETROCHEMICAL CONSTRUCTION PROJECTS IN SOUTH AFRICA

by

WILLEM PETRUS SMITH

submitted in accordance with the requirements for the degree of

PHILOSOPHIAE DOCTOR

in the

FACULTY OF NATURAL SCIENCES

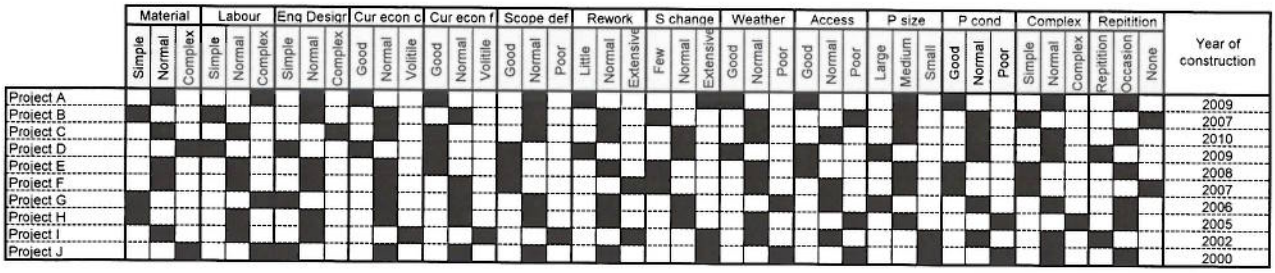
DEPARTMENT OF QUANTITY SURVEYING AND CONSTRUCTION MANAGEMENT

at the

UNIVERSITY OF THE FREE STATE

2011

PROMOTER: PROF. H. J. MARX



(Volume 3 of 3)

ADDENDUM G - COST SUMMARY OF SAMPLE PROJECTS

	Ratio utilised	Project A	Project B	Project C	Project D	Project E	Project F	Project G	Project H	Project I	Project J
1	Mean	R 209,261,437.98	R 166,384,928.67	R 206,501,522.65	R 370,075,439.40	R 162,559,754.50	R 142,637,260.46	R 282,528,735.75	R 117,210,275.72	R 43,413,887.39	R 41,947,031.65
2	Median	R 222,404,719.07	R 179,383,034.79	R 226,907,113.97	R 406,406,821.43	R 178,465,292.26	R 157,059,770.84	R 309,703,045.40	R 128,211,866.55	R 47,630,424.05	R 45,935,662.27
3	Variable - mean	R 209,118,300.59	R 166,520,280.54	R 206,061,111.64	R 357,414,565.30	R 162,062,162.10	R 144,502,633.52	R 278,242,496.63	R 115,705,770.68	R 43,261,594.10	R 41,738,717.34
4	Variable - median	R 217,324,800.09	R 178,195,671.30	R 224,539,545.19	R 373,500,543.51	R 176,461,519.33	R 155,809,290.54	R 301,254,229.72	R 126,432,596.88	R 46,629,028.35	R 44,757,894.11
	Actual cost	192,445,336.00	182,445,332.00	189,445,223.00	323,552,665.00	222,458,774.00	138,442,665.00	345,885,442.00	147,225,124.00	55,425,112.00	39,445,221.00
	Variance between actual cost and estimated cost when specific ratio is applied										
1	Mean	8.74%	-8.80%	9.00%	14.38%	-26.93%	3.03%	-18.32%	-20.39%	-21.67%	6.34%
2	Median	15.57%	-1.68%	19.77%	25.61%	-19.78%	13.45%	-10.46%	-12.91%	-14.06%	16.45%
3	Variable - mean	8.66%	-8.73%	8.77%	10.47%	-27.15%	4.38%	-19.56%	-21.41%	-21.95%	5.81%
4	Variable - median	12.93%	-2.33%	18.52%	15.44%	-20.68%	12.54%	-12.90%	-14.12%	-15.87%	13.47%

Average accuracy findings

1	Mean	-5.46%	calculated over all ten projects
2	Median	3.20%	calculated over all ten projects
3	Variable - mean	-6.07%	calculated over all ten projects
4	Variable - median	0.70%	calculated over all ten projects

Key:

1	Material	Type of material used
2	Labour	Availibility of labour and skills at the time of construction
3	Eng design	Complexity of the engineering design
4	Cur econ c	Current economic conditions - at the time of construction
5	Cur econ f	Current economic factors - at the time of construction
6	Scope def	Level of scope definition at the time of construction
7	Rework	Amount of rework that was done on the project
8	S change	Level of scope changes that occurred
9	Weather	General weather conditions at the time of construction
10	Access	Access to the site when project was excecuted
11	P size	Size of the project
12	P cond	General conditions at the time of construction
13	Complex	Complexity of the project in general
14	Repitition	Level of repitition work that occurred

PROJECT INFORMATION

		KEY QUANTITIES		KEY RATES	
1	Site clearance	m2	16,500	R	4.68
2	Concrete demolitions	m3	30	R	1,657.50
3	Bulk excavation	m3	5,500	R	38.25
4	Vertical piles	No	206		
5	Raking piles	No	15		
6	Concrete in piles	m3	ratio	R	1,572.50
7	Auger pile	m	ratio	R	340.00
8	Total paving and asphalt to road works	m2	4,550		
9	Grey paving to road works	m2	485	R	148.75
10	Asphalt to road surface	m2	4,065		
11	Rip bed of road works	m2	4,550	R	12.75
12	Total concrete in paving and bunding	m3	430	R	1,572.50
13	Concrete in paving	m3	259		
14	Rod reinforcement	t		R	12,325.00
15	Concrete in plinths and bases on area finishing	m3	190		
16	Stormwater pipe to drain surface run-off	m	92		
17	Machine excavation	m3		R	72.25
18	Concrete in pump and pipe support bases	m3	255	R	1,572.50
19	Concrete in tank bases	m3	95	R	1,572.50
20	Concrete in pipe and cable rack foundations	m3	105	R	1,572.50
21	Concrete to simple structural foundations	m3	135	R	1,572.50
22	Complex structural foundations - bases	m3	249	R	1,572.50
23	Concrete pipe racks - bases	m3	199	R	1,572.50
24	Concrete structure including concrete columns and beams - bases	m3	330	R	1,572.50
25	Major equipment bases with blast proof walls - bases	m3	2,700	R	1,572.50
26	Major equipment bases and elevated concrete structure - bases	m3	123	R	1,572.50
27	Concrete frame buildings with brick in-fill - all concrete	m3	798	R	1,572.50
28	One brick wall	m2		R	382.50
29	Concrete in structual steel buildings - all concrete	m3	88	R	1,572.50
30	Total building area - Structural steel buildings	m2	873		
31	Ceiling	m2		R	301.75
32	Structural steel	t		R	46,750.00
33	Steel canopy - concrete	m3	65	R	1,572.50
34	Steel canopy - area	m2	545		
35	Concrete in weighbridge - all concrete	m3	75	R	1,572.50
36	Total weighbridge area	m2	155		
37	Total control room area - weighbridge	m2	14		
38	Concrete in pump house - all concrete	m3	15	R	1,572.50
39	Total pump house area	m2	29		
40	Concrete in cooling tower	m3	544	R	1,572.50
41	Total cooling tower area	m2	403		
42	Emergency earth dam area - top of berm	m2	4,621		
43	Concrete in cable tunnel	m3	137	R	1,572.50
44	Total lengh of cable tunnel	m	65		
45	Total volume of basic steel platform	m3	48		
46	Total volume of steel pipe rack	m3	1,697		
47	Total volume of steel complex steel structure	m3	12,149		
48	Total volume of steel in stack	m3	405		
49	Total volume of steel in walkway	m3	45		
50	Total volume of steel in cable gantry	m3	506		
51	Piping work unit cost	WU		R	370.60
52	Total process pipe length	m	39,216		
53	Total electrical cable - installation only	m	38,480	R	66.30
54	Total instrumentation cable - installation only	m	29,023	R	44.20
